Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Wednesday 05 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Cold overnight with showers easing.

This Evening and Tonight:
Frequent showers in the evening gradually lessen to give lengthy dry spells for many overnight, although southern coastal areas may see heavy rain during the small hours. Rural frosts likely in Wiltshire and the surrounding areas. Minimum temperature -2 deg C (28 deg F).

Thursday:
A slightly cloudy start with light showers around. Clear, sunny skies largely develop for most by midday, but showers linger on in the east, gradually clearing for all by evening. Maximum temperature 12 deg C (54 deg F).

Outlook for Friday to Sunday:
Dry with sunny spells on Friday. Strong winds developing, lasting all weekend. Rain, heavy and persistent at times, on Saturday. Occasional showers with sunny spells between on Sunday.
